**Applicable rules to anchor in the designated anchoring areas:**

- A. The completed form to be submitted online.
- B. Discharge in the sea of all marine harmful substances (e.g. oil/oily substances, black/grey water, etc.), are strictly prohibited. If you are caught discharging illegally into our territorial waters, you will be penalized according to applicable local legislations.
- C. On arrival or when in VHF-range, contact **Fort Nassau port control on channel 12.**
- D. If the vessel is destined for a private marina (entrepot), please indicate and provide name of the marina to **Fort Nassau port control on VHF channel 12.** If the skipper wishes to anchor in the designated anchoring areas, he/she must also indicate this to Fort Nassau port control.
- E. Anchoring in a designated anchoring area without a **valid anchor permit** from the harbor master is **not permitted.**
- F. If a vessel without a valid anchor permit from the harbor master is anchored in a designated anchoring area, will be removed from the anchoring area.
- G. Validity of an anchor permit is based on the maximum stay period given by the Immigration department with a maximum of 90 days.
- H. In the event of an emergency, the Rescue and Coordinating Center (RCC) should be contacted via **VHF channel 16.**
- I. In case of sickness or a person o/b has contracted a dangerous or highly contagious disease, the vessel will be assigned a quarantine anchorage area awaiting further instructions from authorities.
- J. In case of medical emergency and/or advance medical assistance from the hospital is required, the vessel is solely permitted to dock and drop off the person(s) at the public marina for pick up by ambulance/private vehicle. All arrangements and expenses involved, are for the vessel/person(s) requesting assistance.
- K. All applicable international rules to prevent a collision (ColReg) must be applied in curacao waters.

**L. Caution: First time in Curaçao?**

Due to the narrow, shallow and rocky entrance of the Spanish Water lagoon (among others), it is not recommended to approach or enter the Sp.Water area after sunset.
